Greetings Everyone,

A Happy New Year to you all for 2012. I hope that you are having a good holiday and are catching up with Family and friends; walking talking, barbequing and enjoying the warm weather. This is not your usual HB summer of dry heat for the grass of our reserve is like spring growth and the council have to mow regularly. The Havelock hills look surprisingly green which is a pleasant sight. Just hoping the winds will abate a little.

Joan Sye has arrived back after an extended holiday in Europe, then is off to the Coromandel and on to Auckland and home in February; a seasoned and happy traveller. Some of our family are in the UK and in December the children managed to make snowmen on my sister's lawn. However the weather has turned mild over there and they visited the Eden Project in Cornwall

and the ammonite limestone pavements at Lyme Regis (<http://www.lymeregismuseum.co.uk/discovery-and-learning/discovery/fossils-as-you-see-them-on-the-beach>) which made me very

envious.

Nearer home tragedy is always with us with the Rena disaster and the recent hot air disaster at Clareville near Masterton which claimed 11 lives. This gentlest of sports made a deep impact on me as an aviation enthusiast and we regularly have the Hawkes Bay Wine Country balloon floating overhead in a morning. I took the accompanying photo just two days prior to the disaster as it passed overhead.

As we look forward to the start of group activities this year we have our AGM and quarterly meeting on 16th February (More details below) with a good speaker and the usual excellent refreshments. The present committee have been an excellent group to work with and several are hoping to be nominated to continue the work they have been doing into 2012. I have even had a volunteer for newsletter editor after my stint over the last 5 years which is good news. Unfortunately my term as Presidency ends in February after the designated time in our constitution is completed and we will be looking for a new nomination. The committee's tasks are well distributed and with a new President not doing the newsletter that will make the position easier. There is a form included in the newsletter for nominations to the committee and these must be in to the Secretary Trish Loye seven days before the meeting. I hope that you will support the U3A with your nominations.

Trish Loye tells me that there are still a considerable number who have not paid their \$10 subs for this year or nominated their groups. We would be grateful if you could do this as soon as possible. I will add the revised list of groups for 2012. Note that Maori, Croquet (at the Hastings Club), Geology, a new Writing for your Grandchildren, and the History of Science and Technology have been added. Also, there are lists of the groups operated by the Hastings U3A. There are some excellent groups you can join here and talking to their President, Richard Jennings, we believe that the Hawkes Bay U3A's can be constructive

in producing joint courses. I have a meeting with him shortly to discuss this. Read the details on these lists on who to contact.

I note that the Hastings District council has very quietly returned some of one hour parking spaces back to 2 hours on Te Mata Road near the Community Centre. Mainly I believe because of our pressure and others concerned by the underhand earlier change. Let us see if we can have some improved designated parking for the Community Centre by lobbying councillors-especially at election time.

So best wishes for 2012 and I hope that you enjoy your chosen groups. Remember to support the convenors by communicating with them if you are unable to attend. Take care travelling, for although 2011 had the lowest road toll for many years, 2012 has not started well with the usual accidents caused by alcohol, speed and falling asleep at the wheel. Be aware and take care.
Norris Kenwright

WHAT IS A Billion?

This is too true to be funny. The next time you hear a politician use the word 'billion' in a casual manner, think about whether you want the 'politicians' spending YOUR tax money.

A billion is a difficult number to comprehend, but one advertising agency did a good job of putting that figure into some perspective in one of its releases.

- 1 A billion seconds ago it was 1959.
- 2 A billion minutes ago Jesus was alive.
- 3. A billion hours ago our ancestors were living in the Stone Age.
- 4 A billion days ago no-one walked on the earth on two feet.
- 5 A billion dollars ago was only 5 days ago at the rate our government is spending it from the taxes they raise from you and me.

Christmas Stamps

A little old lady was in front of me recently at the post office to buy stamps for her Christmas cards. She said to the clerk, "May I have 50 Christmas stamps?" The Clerk says, "What denomination would you like?" The little old lady said, "Well! Has it come to this? Give me 22 Catholic, 12 Presbyterian, 10 Anglican and 6 Baptist."

Here is the latest lists of groups I have for 2012. Please contact me to correct any errors

Book Discussion: Meeting on the afternoon of the 4th Wednesday of every month, in the Hastings Library, the group discusses a wide range of books of interest. Facilitated by Karin Riley (877 4163).
