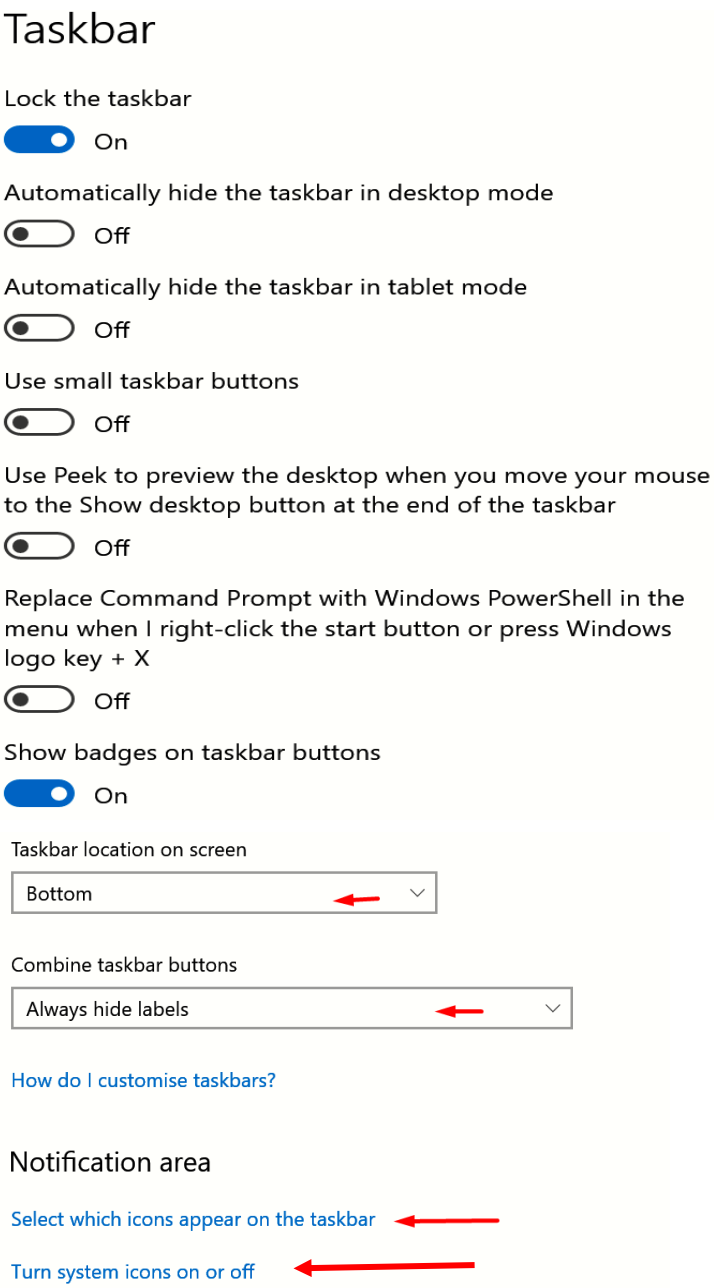
Taskbar settings Windows 10

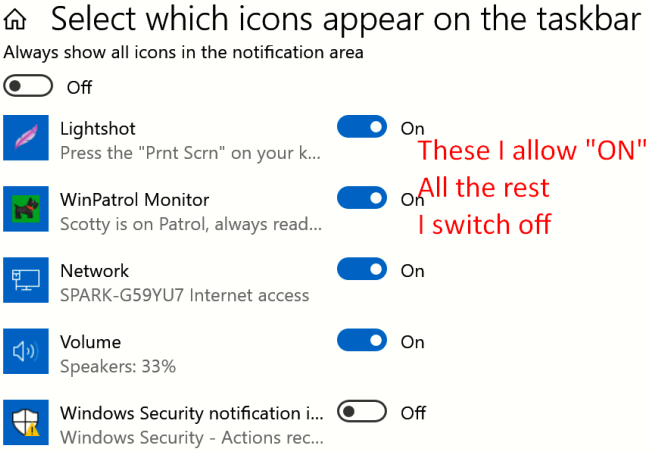
How to stop some unwanted apps running. Helps your PC to run faster

Right click on an empty space on the taskbar and click on taskbar settings.

This is my computer and what I allow to run and items I don't.



I will explore the last two items in more detail showing what I switch on and off.



Turn system icons on or off

Clock	On
Volume	On
Network	On
Power	On
Input Indicator	On
Location	On
action centre	On
